Sterile Space Infection Defense
Verona, NJ

September 1, 2015

Dear Irwin,

At yesterday's staff meeting, I asked the staff if they had noticed any difference in this year's summer program with regard to illnesses. Unanimously, they agreed that the reduced number of illnesses was significant. We had already decided that we had fewer illnesses throughout the winter, but I was curious to hear their take on how we did this summer (almost a year after you treated our center). Everyone agreed (without prompting from me) that we did not have the repeated cases of the same virus running rampant through the summer as we did last year or in previous years.

Your company, Sterile Space, has provided us with a service that really does work - thank you. We also agreed that we want to do it again this year and continue to see a decline in shared types of illnesses. Please feel free to tell perspective clients to call me to hear about our experience with Sterile Space. I also want you to know how much we enjoy working with you personally. You have a very positive and inspiring outlook and that is not always easy to find these days. Thanks again, Irwin. We look forward to working with you again this year.

Sincerely,

Lorraine Grasso Confair, M. Ed.
Director
